## PARIS CHIC MEETS BRITISH STYLE

Briston was born out of a very British spirit.

From the Oxbridge colleges, to rowing regattas, or the sidelines at polo and cricket matches, this «sporty chic» spirit has been a constant presence in British society ever since the reign of Queen Victoria.

This chic yet casual lifestyle and its occasional quirkiness was also a great inspiration for the «preppy» style that originated in the Ivy League universities on the East Coast of the United States.

This year, BRISTON renews with its Parisian origins and watchmaking inspirations, and launches the Clubmaster Iconic, a timeless piece, mixing British charm and French elegance.

Staying true to its singular shape, the cambered square shape, this new automatic Clubmaster completes the sportier Diver model, launched last year.

Furthermore, BRISTON enlarges its accessories range with two-part leather straps, featuring an easy pins system, making it adaptable to any watch. This system is available on leather straps but also on Milanese mesh bands and steel bracelets.

Briston continues to offer you the perfect balance between a contemporary «timepiece» and a chic accessory - casual but resolutely and deliberately accessible.

*Brice Jaunet*

## CLUBMASTER COLLECTION

The Clubmaster collection is defined by its specific shape: cambered-square. Briston offers different materials to dress this very retro-chic case shape: acetate of cellulose or stainless steel with matt, satin brushed, mirror-polished or PVD treatments on the case. The cellulose acetate is a noble material very popular in the high-end eyewear. Developed from 70% of fiber and flower of cotton, it is a natural, hypoallergenic material. Our steel case is made of premium grade 316L, corrosion-resistant stainless steel. Briston has developed 6 declinations of this shape :

### CLASSIC

# CLUBMASTER CLASSIC

### CLASSIC

The Clubmaster Classic was born from the marriage of shape and materials. With its “cambered square” shape which comes straight from the Roaring Twenties and lends it a unique, yet classically horological look in a standardised round watch segment, this elegant and timeless watch is made with a 40 mm case that can be declined with cellulose acetate or steel.

# CLUBMASTER SPORT

## SPORT

The Clubmaster Sport is inspired by the 1960s racing cars lines. Its 42 mm case keeps the iconic lines of the Clubmaster. The Chronograph Date progresses through its graduated tachymeter scale in the inner bezel and its two counters of retro inspiration.

# CLUBMASTER VINTAGE

## VINTAGE

Briston continues its exploration of the Roaring Twenties and gives us this terribly refined and elegant version. Purity of lines, fine craftsmanship and ultra resistant domed glass, allowing an unobstructed view of the time, are defining this Clubmaster Vintage. This case is available in 2 versions: a Chronograph Date and a Hours Minutes with Small Second at 6 o'clock.

# CLUBMASTER ICONIC

## ICONIC

Staying true to the Clubmaster's cambered square shape, Briston has revisited this classic to turn it into an elegant and timeless automatic watch. Driven by Japanese mechanical movements with automatic winding, the new Clubmaster Iconic is presented in a three hands & open heart version or a more classic hours/minutes/seconds & date version. Featuring a sapphire glass on top of this 40mm case, the transparent case back gives an unobstructed view of both calibres, specially equipped with "Côte de Genève" rotor & new 2-part strap with easy pins system.
